# who we are

“

S.N.C is one of the leading companies in KSA. it has established in 2004 and has gained vast experience within Kingdom's market. we are specialized in construction; in addition of an extensive experience for more than 6 years in the field of real estate development .

We have assets of highly experienced specialized engineers technicians, administrators, and accountants .

In S.N.C we achieved an ideal and decent market position in the Saudi Arabia Construction market.

We strongly support the urban renaissance of the kingdom by providing the best quality of services in the construction industry for the private sector projects.

we are taking steady steps to achieve a prominent position among competing contracting companies to keep up with urban growth and the development of human resources Competencies, and expertise necessary for the renaissance of our Kingdom, and our steps are blessed.

We call ourselves dreamers and doers we never know the impossible .”

# Our future vision

Our company specializes in contracting and infrastructure civil, structure, fit-out, decoration works in general. We have reached here through the efforts of an engineering staff and skilled workers. We also have a technical department specialized in infrastructure , civil and construction equipment architecture , and interior design to meet the client needs and satisfications to the fullest extent.

- To take a leading position among contracting companies by implementing contracting works quickly and with high specifications.
- To use modern methods and technology in projects instead of traditional methods.
- To Envolve the modern systems and processes to ensure quality and clients satisfications.

# Our Goals

S.N.C contracting Company emphasizes on ensuring quality with providing general contracting services. With extensive experience in the industry, we have developed processes to ensure the highest standards of quality with all projects.

S.N.C contracting Company implements rigorous quality control measures at all stages, from planning and design to execution and completion. They work closely with clients to understand their requirements and expectations, ensuring that all deliverables meet or exceed industry standards.
